

ArcelorMittal Bremen GmbH: Construction Phase 2

Project Description

Delivery, installation and commissioning of a 500 m natural gas line DN 300
Material 37.0 and St 35.8 I
Rated pressure PN 16 with operating pressure approx 11 bars

Scope of Work:

Engineering, supply, installation and commissioning
Upgrading the technical level
Increasing throughput

Special Features:

Laying the pipelines, sometimes at a great height, requiring the use of a mobile telescoping crane.
Safeguarding and protecting the weld joints from oxidation was one of the main challenges.
